

## EPnet™ EP7110 Account Service Point

The EP7110 Touchscreen Account Service Point is a combined Loader and Information point for the user. When a card is presented the Account Service Point will provide the user with their current balances on their account and entitlements they have available to them. The Touchscreen also offers two further options of accessing card & transaction history or Loading cash to credit the users account. Cash payment is made through the coin mechanism or banknote reader. You simply present your card to the card reader and load coins and/or notes into it. This amount is then added to your account. The large, bright touchscreen display will prompt the user, step-by-step through the process

showing the balance and money added throughout. Units can be sited at a central point or situated around the building at convenient locations. It will accept £5, £10 and £20 notes and coins from 20p to £2, although in practice, a lower limit of £1 coins is recommended. €5, €10 & €20 notes are also accepted in the dual currency version.
