

EPnet EP7200 & EP7210 Account Service Point

The EP72xx range of Account Service Points provides a combined touch-screen Loader with other features:

- EP7200 Loader & customer enquiry point with transaction history available.
- EP7210 as above plus provides guests and visitors with refunds for unspent balances
- EP7220 as above plus acts as a full Guest Card Unit with card dispense, retrieval & refund

When a card is presented at the EP7200 the unit will provide the user with their current balances on their account and entitlements they have available to them. They can choose then to add money or look at their transaction history. The large, bright touch-screen display will prompt the user, step-by-step through the process showing the balance and money added throughout. It will accept £5, £10 and £20 notes and coins from 20p to £2, although in practice, a lower limit of 1p coins is recommended. €5, €10 & €20 notes are also accepted in the dual currency version. The EP7120 version has a refund capability for guests to obtain a refund of their outstanding balance before returning the card to the issuer.
