

EPnet EP925 EPoS Terminal

The EPnet EP925 EPoS terminal is a modern, state of the art touch screen till. The unit is supplied with a number of ports, accessed from beneath, for connecting to various peripherals, including customer displays, printers, cash drawers & bar code readers.

The EP925 is fully integrated into the EPnet catering and vending system.

All programming of the unit is made from the manager's workstation. All sales reports and analysis are also processed on the network.

Detailed management reports are readily available

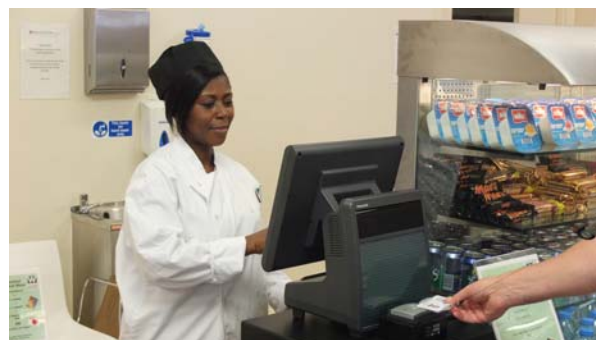

from the manager's workstation. As with all EPnet terminals, they are designed to be used in cashless mode if required, with the units able to read various different card types and technologies.

Peripherals available.

- ✓ Security key card or biometric reader for cashless
- ✓ Customer display
- ✓ Cash drawer
- ✓ Operator ID
- ✓ Receipt or slip printer
- ✓ Bar code scanner

The software is available in 3 formats:

- ✓ Waiter/Waitress service restaurant
- ✓ Self service restaurant
- ✓ Bar
